ABOUT MYSELF

Results-driven Frontend Developer specialising in the development of innovative web applications that enhance user experience.. Demonstrated expertise in web performance optimisation during thesis project at AXIS COMMUNICATIONS. Possesses strong collaboration skills to effectively tackle challenges within team environments. Currently pursuing frontend course to fine tune my skillset. Looking forward to explore more tech stacks.

EXPERIENCE

DASC | March 2018 - December 2018

FRONTEND DEVELOPER

Utilised my expertise in frontend development as a key remote contributor to DASC. Created and developed web application for auction services.

AXIS COMMUNICATIONS | March 2017 - June 2017

THESIS STUDENT

Completed Master's thesis work within the professional setting of Axis Communications in Lund, Sweden. Researched methods to decrease first paint time by loading critical files upfront. Implemented Design Science Research methodology to create tool for identifying essential CSS.
